## Legend

**T** Techo-Bloc Warranty

S Stonedge Warranty 🛞 De-icing Salt Resistant 🔕 Permeable Pavers Ю High Definition & Density

For an authentic look, each color option is composed of a variety of darker & lighter tones. Natural ingredients are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Color samples for reference only. Actual product colors may vary.

Midwestern USA encompasses these states: AR, CO, GA, IA, ID, IL, IN, KS, KY, MI, MN, MO, MS, ND, NE, OH, Western PA, SD, TN, WI & WV. Eastern USA encompasses these states: CT, DE, MA, MD, ME, NC, NH, NJ, NY, Eastern PA, RI, SC, VA & VT

# It's all in the details.

#### What makes Techo-Bloc best in class? Every. Single. Detail.

As paving stone companies go, we're cut a little differently. We curate textures from around the globe to design products that are beautiful on the surface and good to the core. Our proprietary mixes of carefully sourced ingredients and pigments are some of the little things that make all the difference.

### The details you can't see; they matter just as much.

Beyond out-of-the-ordinary textures, our treatments and technologies represent most of the 39 registered patents held by our industry-leading research and development teams. The countless hours spent inventing, testing and perfecting are all part of the fun of making concrete not look like concrete at all.

#### How to "Wow"? Push boundaries and broaden horizons.

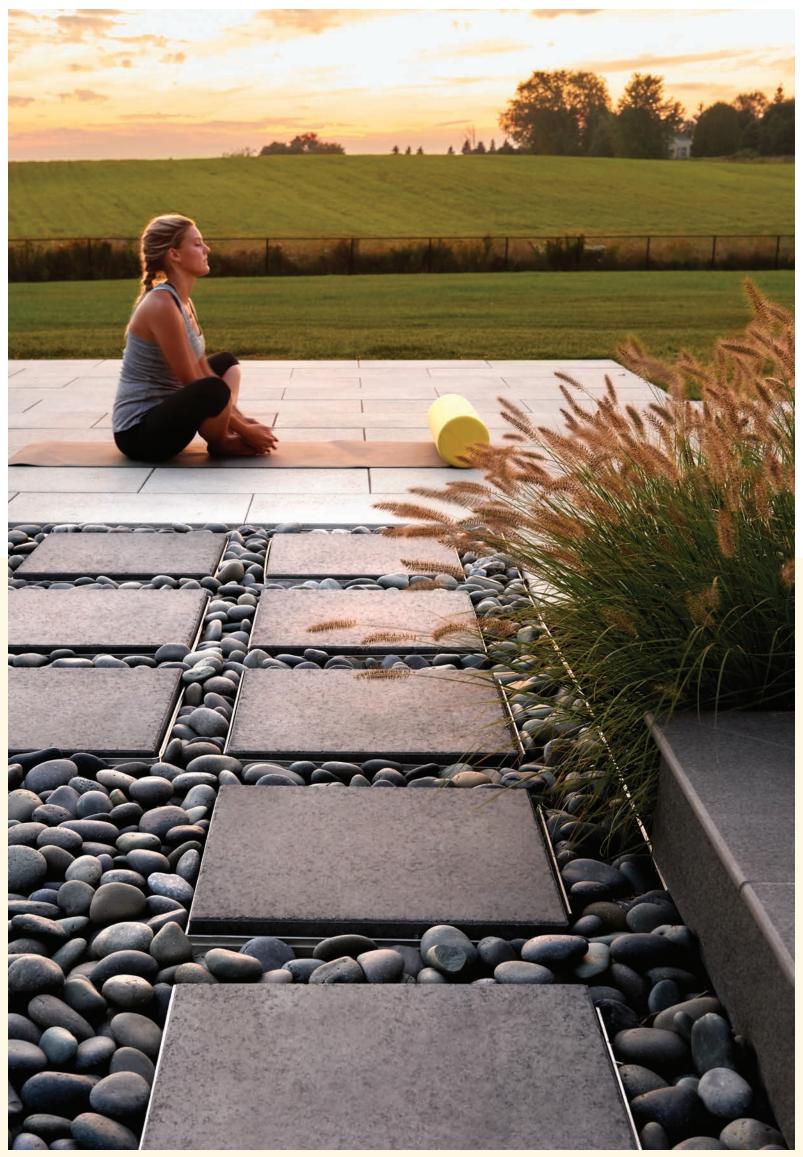

Every year, we work on this book to highlight our favorite trends, design properties and the products we swoon over. It's a window into the design possibilities of your own space that helps you zone in on the right materials. Go ahead: mix, match and contrast. We've designed our paving stones, pool copings, walls, steps and caps in colors and textures that work together giving you the freedom to create a space that's as surprising as it is intentional.

#### Enjoy the little things.

Whether you're planning a new outdoor space just to sip a glass of lemon water by the pool, to have a drink with friends in your backyard bar, or to host Friday night gatherings in your new outdoor party space, we hope you enjoy all the little things; because they make all the difference.

Details are not just details. They are the sum of the finer things in life.

Industria slab 600 × 600 - Onyx Black / Para HD <sup>2</sup> slab 500 × 750 - Greyed Nickel

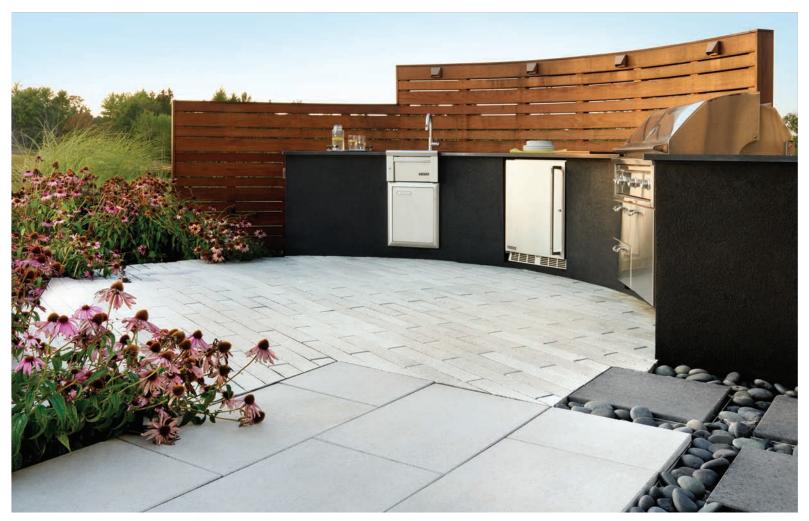

# Your summer, from A to Zen.

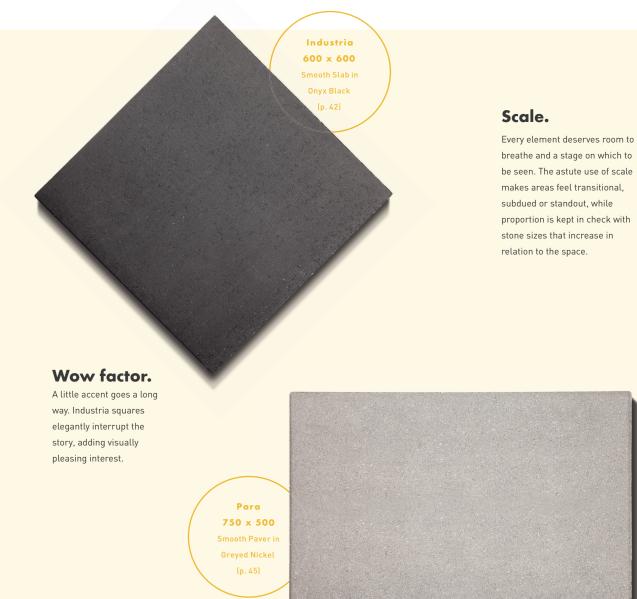

It's pretty simple, really: Really simple is pretty. Minimalists would agree. Clutter-free visual bliss is what they strive for with clean lines, subdued colors and just the right contrasts in all the right places, making these kinds of landscapes an almost soulful experience. Sense how monochromatic tones calm the mind, and contrasts stir up a little something in the soul? Reach-out-and touch-me smooth textures ground us in the knowledge that sleek and simple can still spark the senses, while fluid lines and balanced forms leave negative spaces positively glowing.

Para HD<sup>2</sup> slab 500 × 750 - Greyed Nickel / Industria paver smooth 600 × 600 - Onyx Black

Para HD 2 500 × 750 - Greyed Nickel / Industria paver smooth 600 × 100 - Greyed Nickel / Industria paver smooth 600 × 600 - Onyx Black

# Texture.

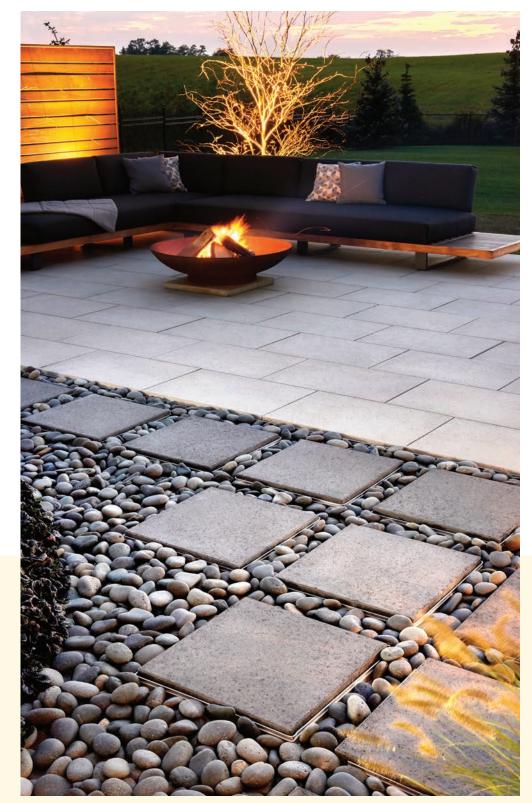

Meet our newest smooth operator: High Definition (HD<sup>2</sup>) smooth, inspired by the clean lines of minimalism. Sleek without seeming sterile, the unparalleled finish of HD<sup>2</sup> stones serves as a clean canvas for accentuating form and function. The minimalist's motto: A place for everything and everything in its place. Take out your ruler and square, this design is all about calculated proportion and scale. The rectangular-shaped lounging area proves this true with a length-to-width ratio that matches the Para slabs that pave it.

Black square-shaped stones (the Industria slab) transition us with contrast from one space to another; giving each area it crosses its very own intuitive sense of purpose.

Then, just when everything starts to feel a little square, the masters of minimalism bring it full circle with long-thin rectangles (Industria 600x100) set in a round frame to punctuate the show-stopping display of hovering globes & half-moon outdoor kitchen.

Tight joints with long, lean lines create a distraction-free journey for the eye.

Para HD<sup>2</sup> slab 500 × 750 - Greyed Nickel / Industria paver smooth 600 × 600 - Onyx Black / Furniture: jardindeville.com

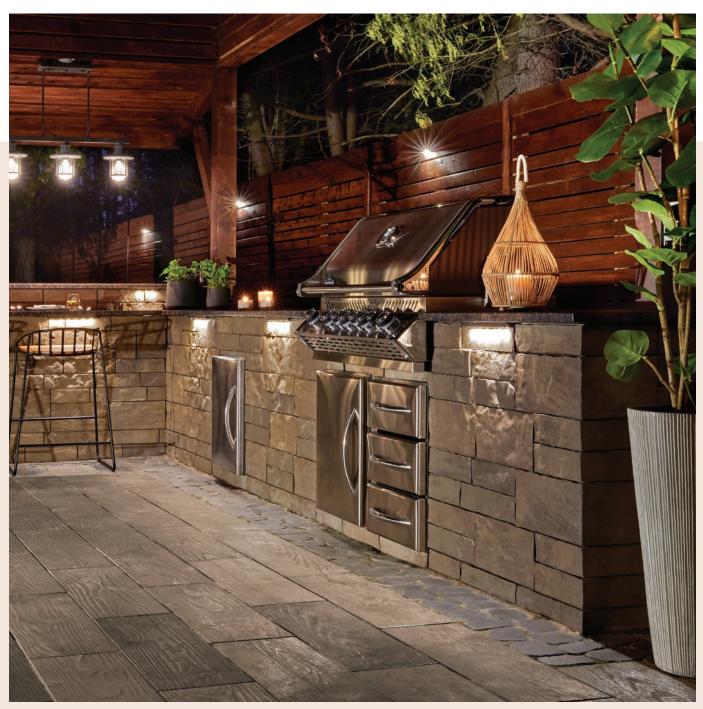

Industria paver smooth 600  $\times$  100 - Greyed Nickel

# The spark of the outdoors.

There's nothing in the world that compares with the beauty of the great outdoors; but with a bit of imagination and some earthy inspiration, you can kindle a spark of that one-of-a-kind grandeur right in your own backyard. When paying homage to nature's finest elements, texture is king of the mountain. Rough-hewn finishes convey a raw beauty that's complemented by sculpted stones (Brandon wall) and remarkably wood lookalike textures (Borealis slabs). An earth-toned palette feels warm, welcoming and timeless, and gives the collection of textures free reign to run a little wild.

Borealis Slab 10 × 30 - Hazelnut Brandy & Smoked Pine / Brandon wall outdoor Kitchen - Chestnut Brown / Furniture: jardindeville.com

Borealis Slab 5 × 30 - Hazelnut Brandy & Smoked Pine / Antika paver - Chocolate Brown / Brandon rectangle fire pit - Chestnut Brown / Furniture: jardindeville.com

Warm earth tones infuse our product collections, allowing for a seamless combination of textures across different applications. Down-lighting high-texture vertical elements like the Brandon wall outdoor kitchen spice up every evening with a hint of the dramatic, while the fire pit flame exudes warmth and sets the mood.

Shapes.

Antika adds some wellrounded personality to the mix, stopping the eye and taking the edge off by breaking up the

flow of straight lines.

**Brandon** Wall in Chestnut Brown (p. 84)

### **Textures.**

Antika Paver in Chocolate Brown (p. 53)

Peaks and valleys in sculpted stone add textural interest to the bar area and fire pit, keeping the atmosphere feeling elegantly rugged.

12

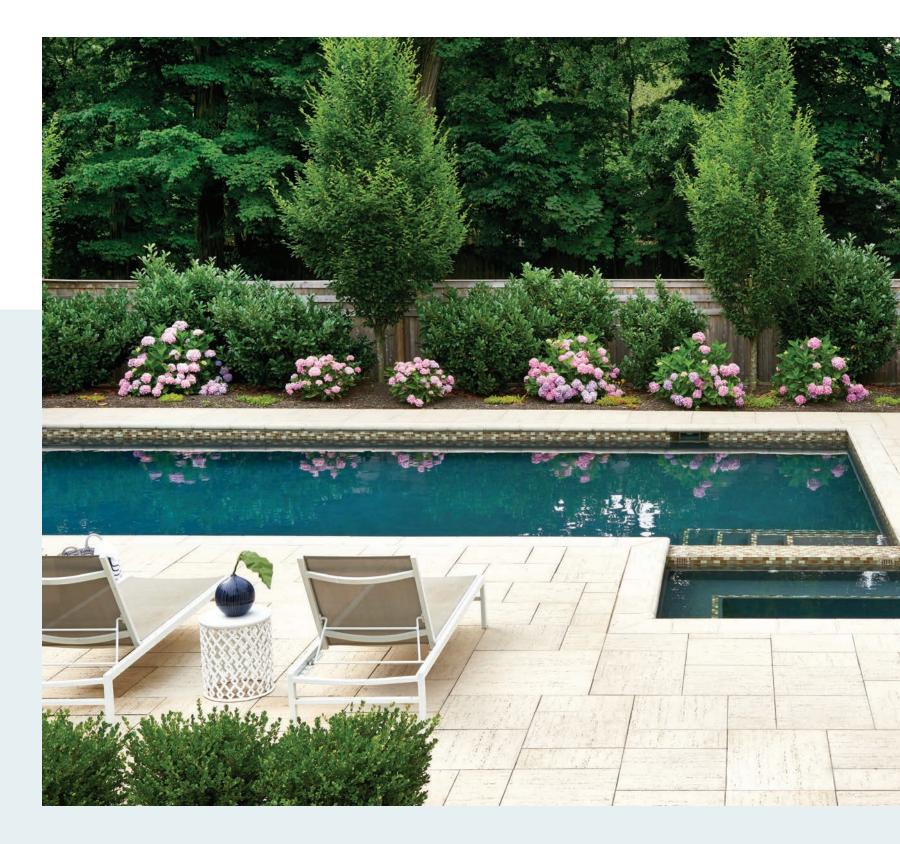

Borealis Slab 10 × 30 - Hazelnut Brandy & Smoked Pine / Brandon Outdoor kitchen & fire pit - Chestnut Brown / Furniture: jardindeville.com

## Scale and color.

The wood-like finish of Borealis is a strikingly grounding element throughout the entire space. The gradating sizes and tones of the stones beautifully replicate the variable nature of the material they so elegantly emulate.

# Beige doesn't have to be so beige.

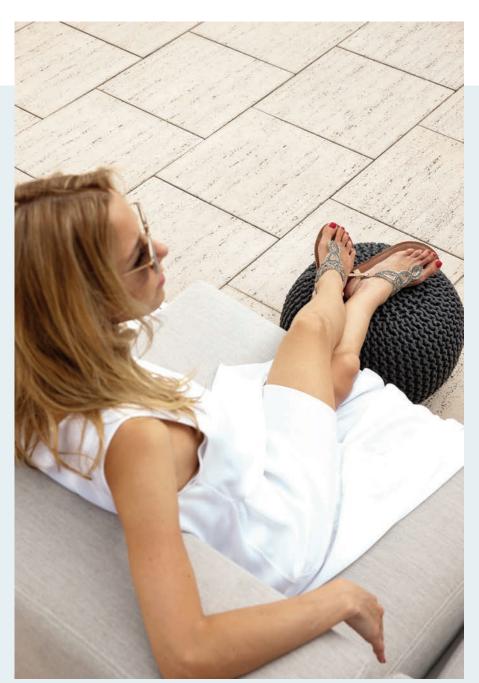

It's plain to see how easy it can be to embrace the beauty of beige. Treated with a keen eye and a wink towards tasteful accessorizing, off-white clearly feels anything but vanilla. It's the sublimely neutral canvas that gives the decor connoisseurs carte blanche to introduce, edit and change every other accessory and furnishing, should the mood strike. Go ahead and get a little creative with accentuating features—with dreamy cream as your base, you'll never feel weighed down.

Travertina Raw Slab - Ivory

Travertina Raw Slab - Ivory

Borealis Slab in Smoked Pine

(p. 36)

Travertina Raw Slab - Ivory

The more we look, the more we see that there's more to neutrals than meets the eye. Organic and luxe textures, like wood and travertine, come together here in a patinachic communion; a thoughtful way to make an expansive space still feel inviting. The Travertina slabs set the tone by modeling after natural travertine's regal "renommé", while keeping things casual with the unique patterns of carefully crafted cavities that give it its "cachet".

Travertina Raw Slab - Ivory / Borealis wall & slab - Smoked Pine

## Shapes.

Bali Travertina pool coping is a stylish way to smooth out the edges. The rounded bullnose shape lends contrasting softness to the pool's angular lines.

> Travertina Raw ol coping in Ivory (p. 114)

# Texture.

Travertina is the embodiment of understated elegance. Texture variances add a layer of interest and lend it timeless appeal. Building on the theme of timelessness: Travertina is actually constructed of concrete, ensuring it stands its ground through North American winters.

> Travertina Raw Slab in Ivory (p. 46)

# Going organic.

The feel-good aura of traditional wood is eternalized in durable stone. This is what maintenance-free natural beauty looks like.

# Nevertheless, always the more.

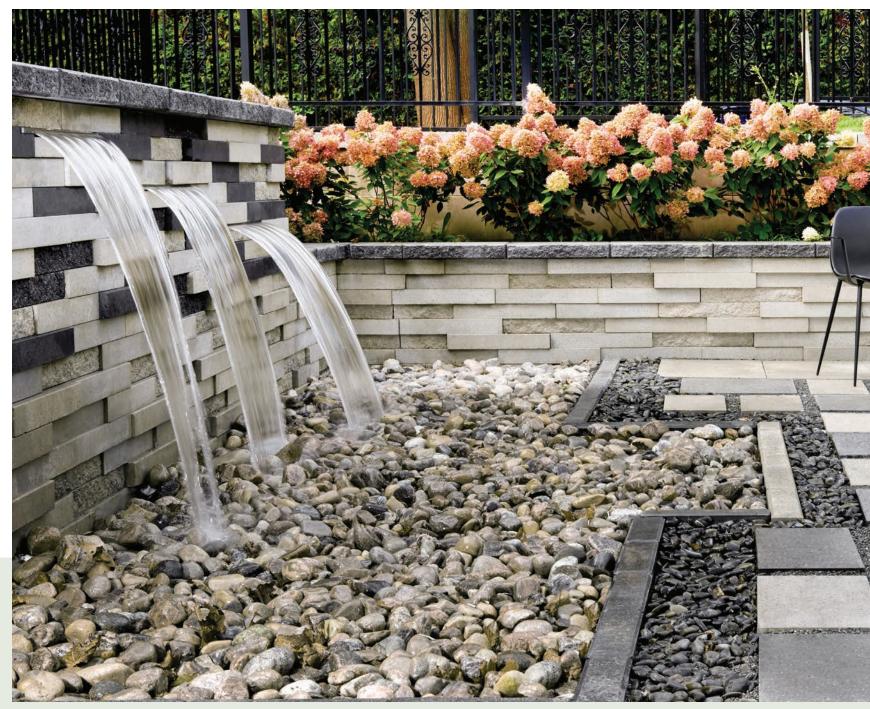

If you're going to go bold, go all the way. It's called maximalism and the motto is "more is more". High-contrast shades and shapes satisfy a penchant for audacity and an eye for the adorned. Checkerboard-style layouts act as flashy foundations that invite polished, smooth and chiseled textures to meet and mingle at the black-tie-optional party. Pushed just close enough to the edge, it's all as eye-catching as it is breathtaking. Wherever you turn, there's something daring going on—and you wouldn't have it any other way.

Valet Paver - Onyx Black & Shale Grey

Sleek Paver - Onyx Black & Greyed Nickel

Graphix wall - Onyx Black & Greyed Nickel / Graphix cap - Onyx Black / Industria Paver 300x300 & 300x600 - Onyx Black & Greyed Nickel / Raffinato edge - Onyx Black / Furniture: jardindeville.com

# Verticality.

The altering depths and textures of Graphix Wall keep the eye roving, always searching for the next surprise.

20

### without venturing too far off the grid. The free-laid pattern of the (Industria) paver rocks the baseline and drives the eye up the (Graphix) wall, where its staggered depths keeps things interesting. The wrought iron fence guides the lines upward while standing sentinel over an orderly riot of flowers. This is how to take clever design and sharp-butsynthesized contrasts to the next level.

This design goes the extra mile to make a statement

**Sleek** Slabin Shale Grey

(p.66)

# Wow factor.

Excite the eye with contrasts using greys and blacks in fun patterns. The Valet paver does this well with its 6"x 6" square shapes to create patterns ranging from linear, to diamond and offers framing options galore.

> Valet Paver in Shale Grey and Onyx Black

> > (p. 69)

# Scale.

Sleek slabs in a checkerboard pattern leading up to the house offer an extra dose of chic with their ultra-smooth HD<sup>2</sup> finish.

	- I I I I I I I I I I I I I I I I I I I

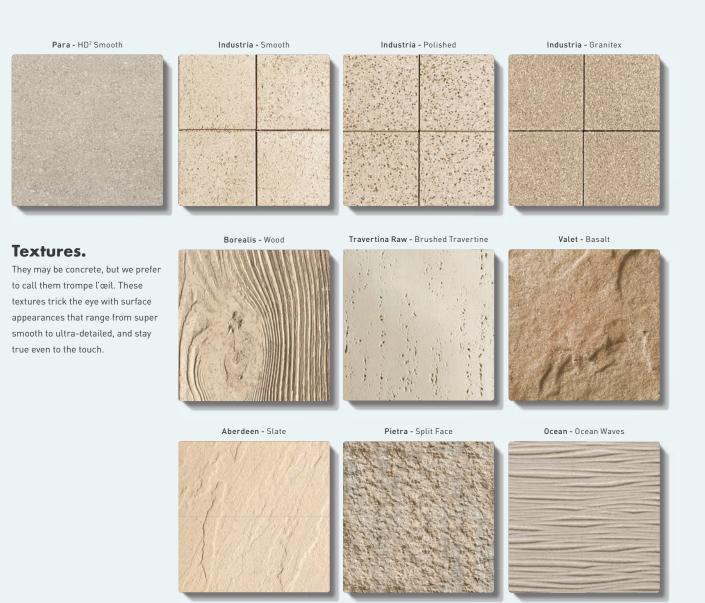

# The design playground

Shapes and colors. Scales and proportions. Materials and finishes. This is where every element comes to play in a perfectly orchestrated game of style mastery.

## Shapes.

## Scale.

Mind the scale you're working with. Larger stones are fit for grand spaces while smaller ones are ideal for banding, contouring and mosaics.

# Colors.

We love naturals. Thoughtful planning of our color selection means that all your favorite shades show up in multiple collections, making it easy for you to mix, match and contrast to your heart's content.

# Highlights & lowlights.

From greyscales to beige scales there's no place to downscale; when contrasts are involved, things always pop. Our color scales range from light to dark, so you can choose your main color, then accent with lighter or darker tones.

# **A new era of concrete** HD<sup>2</sup>: High Definition & Density

We're big on inventing. Machinery, finishes, chemical treatments & mixes, manufacturing processes, structural & interlocking systems; if it's related to landscape stones, we probably have a patent for it.

The High Definition & Density (HD<sup>2</sup>) line is our newest baby and our favorite game-changer to date. The new proprietary, state-of-the-art manufacturing process with a US and Canadian patent (and a worldwide one on its way) provides a hyper smooth and detailed surface texture with a list of structural benefits to go with it. Think style and substance.

Best of all, we load the surface with the highest pigment content, so your Techo-Bloc paving stones are vivid and rich with color in all the natural hues we're known for

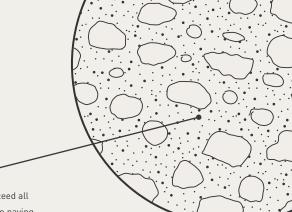

# Beauty &

### finish •

The tighter finish on the surface dramatically decreases the stone's absorption levels; and a stone that absorbs less water is less vulnerable to the outdoor elements. Think of it as an anti-aging mechanism. A higher rate of finer particles per square millimeter create the aesthetics of a tight finish and ultra-detailed surface texture.

# Patented HD<sup>2</sup> fusion technology

The manufacturing process fuses two concrete recipes that, when combined, form one entity to create the optimal paving stone.

Strength & Durability •—

Coarse aggregates make up the core to exceed all the engineering specifications of a premium paving stone that stands the test of time, traffic and harsh weather conditions.

# BENEFITS OF OUR HD<sup>2</sup> COLLECTION:

- → Hyper-smooth (pore-reducing)
- $\rightarrow$  Ultra-detailed
- $\rightarrow$  Anti-ageing
- ightarrow Brighter colors
- $\rightarrow$  Stronger than ever (compression, flexion)
- $\rightarrow$  Salt resistant

# Slabs

# GO BIG AND STAY HOME.

Make waves without ever leaving home with the sizeable style of our fab slabs. These durable beauties get their kicks by tricking the eye with next-level textures, in quality that ensures they'll be around for the long run (and the big fun). From a sandy-beach finish that ups the cool factor of your pool party to wood-like textures that inspire boardwalk talk, these walk-on-me-only slabs (no vehicles, if you please!) are uniquely designed to minimize seams and maximize compliments—from patio to pool deck to walkway.

# **Payers** & Permeable solutions

#### CURB APPEAL, LOCKED IN.

Home neat home. From driveway to walkway to style-it-your-way, our inspiring selection of interlocking paving stones makes it a snap to get creative. Lock in your design dreams with these color-consistent, saltresistant beauties that are built to survive the drive; but, why stop there? Patios, pathways and poolside are all primed to share the spotlight, while keeping things neat under your feet. Enjoy the perfect homecoming every day with beauty and durability that go far beyond the surface.

## **Permeable solutions**

Give new meaning to the term "environmentally conscious" with permeable pavers that are as eye-catching as they are eco-friendly. With all the desirable features of our traditional pavers, plus the added functionality of effective surface water management, permeable pavers are a rock solid way to treat your home environment to an elegant upgrade while keeping the grander environment in mind. Stress less about flooding,

# Edges

#### ALWAYS ON THE EDGE, NEVER OUT OF LINE.

When it's time to get your lawns and landscaping in line, style's the limit for 2018. Edges add an eye-catching angle of elegance to your gardens and landscaping while ensuring grass, mulch, and other natural delights stay rather than stray. From subtle to smashing, we've lined up a showcase of stone borders that instantly add a polished edge to your outdoors. Let nature's beauty shine while keeping it all in line, with durable solutions that go the distance while always looking the part.

## Walls

#### HIGH STYLE TAKES A STAND.

Ready to get creative with your outdoor world? Our varied range of wall options inspires you to reach for the sky. Keep erosion in check while building up the visual interest of your yards, gardens, patios and more with tasteful walls that define each space. They're thoughtfully constructed to look good from every angle and in colors that perfectly match our pavers and slabs.

You can be sure the compliments will start stacking up in no time.

# Steps

#### A STEP IN THE RIGHT DIRECTION

Leveling up the landscaping game is simple when you take the right steps. From enchanted garden paths to practical patio stairways and every step in between, Techo-Bloc gives your outdoor projects a lift with a product selection that spans from classic to contemporary. For makeovers that are nothing short of magical, our maintenance-free overlay systems are a beautiful way to lend new life to timeworn poured concrete.

# Outdoor Features

#### GET IT WHILE IT'S HOT.

We've got your ticket to VIP (Very Impressive Patio) status. Fire pits, fireplaces, pizza ovens and grill islands become the life of the patio party, while turning you into a star entertainer. Take your pick from clever or classic finishes, in colors made to match our other stone features. Light the spark—and don't be surprised if you find yourself inviting the neighbors over to celebrate nothing in particular.

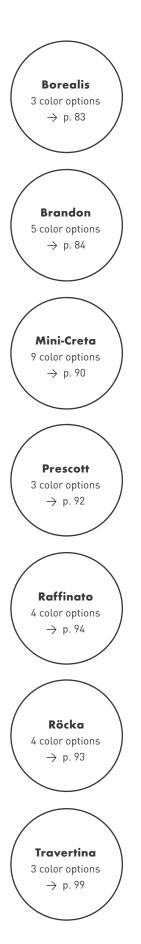

## **Grill Islands**

## **Color Coordinate**

For an authentic look, each color option is composed of a variety of darker & lighter tones.

Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Final color selection should be made with your contractor from product samples or at your local dealer from stocked product. This color chart serves as a guide for color selection across product lines.

#### A STANDARD OF CARE

The care of high quality concrete products is similar to the care of any product left in the environment 365 days and nights per year. Very mild cleaning using detergents, water and product specific chemicals is necessary and similar to cleaning patio furniture, a vehicle's chrome, plastic, or paint, etc. in order to enhance their presence and charm. Sealers of all types (high, middle, and low sheen, pigmented/tinted, penetrating or film forming) are available for additional protection from acid rain, stains and nature's worst. To get the most from your investments take care of them and they'll take care of you. For any questions on industry-specific cleaners and sealers, see your local hardscape dealer/distributor, contact your contractor, contact us or search online.

It is contrary to Techo-Bloc's SOP (Standard Operating Procedures) to be involved in the care of a mature pavement or retaining structure. Care as mentioned above is the responsibility of the owner for any and all outdoor products.

NCMA disclaimer: "In areas where segmental retaining walls will be repeatedly exposed to snow (such as from snow plowing operations) consider periodically applying sealants or water repelling chemicals (silane or siloxane compounds) to the wall surface."

#### COLOR

Due to the inherent nature of printed literature and current digital media, Techo-Bloc cannot guarantee specific colour matching to printed representations of its colour swatches.

Each colour option is composed of a variety of darker & lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Therefore, colours samples shown are approximate representations of our standard colours and actual product colours may vary.

Final colour selection should be made at your local dealer from stocked product. Techo-Bloc always recommends immediately verifying the product and colour upon reception. If there are any discrepancies, contact your local dealer before continuing your project. Installation of the product constitutes your acceptance of the product as is.

#### **EFFLORESCENCE**

This warranty does not apply to efflorescence. Efflorescence is a natural occurring process in all concrete products which sometimes appears in the form of a white powdery film on the pavement surface. Efflorescence is more perceivable in darker colours such as Onyx Black and Chocolate Brown as there is a higher level of contrast than with other blended colours. It does not, in any way, compromise the functionality or the structural integrity of the product. Although efflorescence cannot be prevented, it will wash off over time or can be cleaned with efflorescence cleaner. Techo-Bloc accepts no responsibility or liability for this condition.

#### **POLYMERIC HAZE**

Polymeric haze from the use of polymeric joint sand may appear on your concrete products if the sand was not removed from the surface of the paver properly. This does not, in any way, affect the integrity of the product or your installation. The hazing will weather away naturally with time and rain. It can be removed with a specialized cleaner; you are advised to contact your contractor or the polymeric sand company used for instructions & recommendations. Techo-Bloc accepts no responsibility or liability for this occurrence.

#### COMPACTOR AND SNOW REMOVAL EQUIPMENT

A by-product of cutting with a saw is residue-filled water or concrete dust. Residue filled water or re-hydrated dust can cling to the surface and leave a concrete stain. It is recommended to wash and remove the water or concrete dust from the surface of the pavers before it dries. Construction residue can also happen through soil disturbance or environmental elements. These contaminants should be removed immediately but do not affect the integrity of the product or your installation. Techo-Bloc accepts no responsibility or liability for these occurrences.

#### **PROPER COLOR DISTRIBUTION AND LAYING TECHNIQUES**

Proper installation enhances the overall color of pavement. Units should be randomly picked from at least two pallets when installing. This creates an attractive and subtle blending of color.

#### **CONSTRUCTION RESIDUE**

Pavers with an embossed surface (high and low points) are more susceptible to scuff marks from vibratory plate compactors used in most concrete paver installations. Techo-Bloc recommends the use of a urethane mat between the plate and the paver surface during compacting. Contact your equipment supplier for more information about accessories for this purpose. Also, snow removal equipment should have the proper spacing, bumpers, and rubber blade guards to protect the surface of the pavers. Techo-Bloc is not responsible for damage caused by the misuse of compaction or snow removal equipment, which may leave scuff marks, or burns on pavers.

## We only craft products we would want in our own backyards

#### **T** TECHO-BLOC WARRANTY

TECHO-BLOC IS PROUD TO CERTIFY that our paving stones and retaining walls meet the latest industry standards in Canada and the United States of America. All Techo-Bloc manufactured landscape products comply with and surpass all applicable standards established by the CSA (Canadian Standards Association), ASTM (American Society for Testing and Materials) and the BNQ (Bureau de normalisation du Québec), recognized as the strictest standards throughout the world.

TECHO-BLOC OFFERS A TRANSFERABLE LIFE-TIME WARRANTY on the structural integrity of all paving stones and retaining wall stones it manufactures. It covers any disintegration and/or decomposition of the above-mentioned products resulting from natural causes and the abnormal deterioration of the surface due to the use of sodium chloride (NaCl) such as de-icing salt.

IF PRODUCTS PROVE DEFECTIVE, we will replace these units. Techo-Bloc's responsibility is limited to its products only and not to the costs related to the installation of those products. Techo-Bloc will honor this transferable lifetime warranty with a proof of purchase such as an invoice or delivery slip.

ALL EXCLUSIONS CONCERNING COLOR, efflorescence, polymeric haze, construction-born residue, compactor & snow removal equipment apply.

NOTE: This warranty is for residential construction only. This warranty does not apply to any breakage, chipping, natural wear or other deterioration that were caused from improper design or installation which does not comply with applicable codes, the ICPI (Interlocking Concrete Pavement Institute), NCMA (National Concrete Masonry Association) and recognized work procedures. This warranty does not apply to any damage resulting from a natural disaster or from a deliberate and/or negligible act on the part of the purchaser, owner of the building, installer or any third party. For industry information about efflorescence, polymeric haze or information pertaining to installation specifications, please visit www.icpi.org or www.ncma.org.

#### **(S)** STONEDGE COLLECTION WARRANTY

STONEDGE™ LANDSCAPE AND MASONRY PRODUCTS are manufactured under the highest standards of quality and workmanship. This warranty is offered to the original Consumer Purchaser (Homeowner), for as long as they own their home. Stonedge™ warrants that the product is free from defects in material and workmanship, and is in compliance with the specifications of the Canadian Standards Association and the American Standards for testing Materials.

All exclusions concerning color, efflorescence, polymeric haze, construction-born residue, compactor & snow removal equipment apply. Unlike the Techo-Bloc products, Stonedge products are not warranted for the use of sodium chloride (NaCl) such as de-icing salt unless othewise stated. We recommend the use of these products in backyards where winter access is limited.
